PRACTICAL JOKE MAY PROVE FATAL

**IRONIM IGNATS IS IN CRITICAL
CONDITION AT THE
HOSPITAL.**

BODY INFLATED WITH AIR

**Charles Pope is Being Held Pending
Recovery or Death of
Ignats.**

Ironim Ignats, a Hungarian employed at the Sandusky-Portland cement works east of the city, is at the point of death at the Dixon hospital as the result of a so-called practical joke, alleged to have been perpetrated on him Wednesday afternoon by Charles Pope, a fellow workman. Pope is in the county jail, where he will be held pending Ignats' recovery or death.

Between 2 and 3 o'clock Wednesday afternoon Ignats' body was inflated with compressed air; Pope, because of his superior strength, being able to hold his victim and the air hose to him until a fellow workman turned off the pressure. A very large amount of the compressed air, which is under 80 pounds pressure, was forced into the man's intestines, and although an emergency operation was performed last evening, the victim's condition is critical.

Thought It a Joke.

According to the information secured by the officers late yesterday afternoon, Pope was using the compressed air to clean a pipe on which he was working, and while he was so doing Ignats walked past him. Pope turned the stream of rushing air onto the other man's breast and Ignats, who was extremely warm, jumped away from the hose and covering his breast with his arms and hands, shivered and chattered that the air made him cold.

With a laugh Pope, it is charged, grasped the smaller man in one arm and despite his victim's struggles, held him and inflated him with a great deal of the air. The man's abdomen and chest were horribly inflated and as quickly as possible he was brought to the hospital in this city and the operation performed. In the meantime Pope was arrested by Sheriff Reid and Deputy Phillips and brought to the county jail.

Air Under Skin.

While the operation performed on Ignats relieved him considerably the surgeon found that the air had worked through the walls of the intestines and had lodged under the skin all over his body. His body is horribly swollen. In addition to the danger caused by the air, there is fear the drying of the fluids in the organs of the body may bring on unfavorable conditions and peritonitis may develop.

No charge has been preferred against Pope pending Ignats' outcome. Should he die a charge of manslaughter will be preferred against the man who perpetrated the heinous joke, while the charge will be malicious mischief if the victim recovers.

Other Employees Amused.

That the foreigners employed at the plant did not realize the seriousness of Pope's action was evident from the laughter which greeted Ignats when, with horribly distended body he fell to the floor after Pope released him. The workmen thought it funny that he "could take little man and make big man out of him."

COUNCIL WILL HOLD

ADJOURNED MEETING

The city council will meet in adjourned session at 10 o'clock tomorrow morning to award the contracts for the Monroe avenue and First street sewers, on which Gund & Graham were the only bidders.

ELECTROCUTED IN PRESENCE OF WIFE

**HERBERT BACKUS OF ROCKFORD
WAS INSTANTLY KILLED
YESTERDAY.**

Rockford, July 10—Death as the result of the terrific wind storm that swept this city Tuesday claimed its first victim Wednesday when Herbert L. Backus was instantly electrocuted as he grasped a high live tension electric wire hanging in a tree in front of his house, 2100 volts shooting through his body and causing instant death. The tragic death of Mr. Backus was witnessed by his wife, who was standing but a few feet distant when her husband took hold of the wire.

REJECT ALL BIDS ON

SUBLETTE BRIDGE

Supervisors Emmert, Burkett and Banks, who were appointed as a committee to act with the commissioners of Sublette township in the erection of an approach to a bridge over Bureau creek in that township, met yesterday with the commissioners and opened bids for the work. None of the bids received were satisfactory, and accordingly were rejected. The work will be readvertised.

DIXON YOUNG MAN IN A HOTEL FIRE

**CLEM SIZER, WITH HIS BROTHER
OF ROCKFORD, ESCAPE FROM
BURNING BUILDING IN NIGHT
CLOTHES.**

Rockford Republic: Word was received here today from Thomas Sizer telling of the hotel fire at Macatawa, Beech, Mich., in which he and his wife and brother, Clem, of Dixon, were in danger. They escaped from the burning building in their night clothes and other apparel was thrown from the windows by employees of the hotel.

Mr. and Mrs. Sizer and brother have been in Michigan on their vacation and their letter states that they are little the worse for their experience. They recovered all of their belongings and were not injured in any way.

CHANCE FOR BOYS TO ATTEND FAIR

**BOYS' STATE SCHOOL WANTS
ONE MORE LAD FROM
LEE COUNTY.**

County Superintendent L. W. Miller has received from the Illinois State Board of Agriculture a request that the board be notified as quickly as possible the names of the two boys who will represent Lee county at the Boys' school, which is held in connection with the state fair. Thus far but one boy has applied and Mr. Miller is desirous that any boy who may be inclined to take advantage of this offer notify either him, John J. Wagner, chairman of the board of supervisors, or Abram Acker of Dixon, president of the Lee County Farmers' Institute.

About fifteen Dixonites attended the dance given by the Green River United States Amusement company at their pavilion in Amboy last evening.

HOUSE WILL SIFT MULHALL CHARGES

**COMMITTEE APPOINTED TO INVESTIGATE ALLEGATIONS
BY COLONEL.**

HEARINGS ARE TO BE PUBLIC

Representative Garrett Named Chairman of Inquisitorial Body—No Special Counsel.

Washington, July 10.—The house has voted unanimously to direct a special committee of seven members to investigate the Mulhall "lobby confession" and all other details of legislative activities that may be disclosed.

Representative Finis J. Garrett of Tennessee was appointed chairman of the committee by Speaker Clark.

The senate "lobby" committee is still busy with the sugar and wool lobbies, and is not expected to reach the Mulhall "confession" before next week.

All Hearings to Be Public.

The other members named on the Garrett committee are Representatives Cyrus Cline of Indiana, J. J. Russell of Missouri and S. J. Roddenberry of Georgia, Democrats; W. H. Stafford of Wisconsin and Frank B. Willis of Ohio, Republicans, and John I. Nolan of California, Progressive.

Printed copies of the Mulhall correspondence have been prepared for the house inquirers. The resolution adopted by the house provides that all the hearings of the committee shall be open to the public.

Counsel to Be Employed.

Although on a motion for reconsideration by Minority Leader James R. Mann of Chicago, the house reinserted a clause authorizing the committee to employ counsel, it is not expected that an attorney will be named at the outset.

Representative James T. McDermott of Chicago, whose name has figured in various details of the Mulhall confession delivered a speech in the house denying the Mulhall charges.

McDermott Makes Defense.

"Sunday, June 23," he declared, "an article appeared in the press of the country in which M. M. Mulhall accused me of being in the pay of the National Association of Manufacturers. This is an unjust, an outrageous falsehood. I never received a cent from anybody belonging to this association. I have always cast my vote on the side of labor, and my votes will show this fact. I am willing to let my record speak for itself with my people. I am ready to go before any committee at any time, and trust this investigation will be most thorough. The results in my case will show a deep laid conspiracy against me by Mulhall and others."

Request by the National Association of Manufacturers that the senate lobby committee at once subpoena a long list of present and former congressional leaders resulted in a reply from Chairman Overman to the effect that no subpoenas would be issued until the charges against the association had actually been put into the records—instead of the newspapers.

McMichaels Is Removed.

Coincident with the action of the house in ordering the inquiry, J. H. McMichaels, charged by Mulhall with being a spy at the capitol in the employ of the National Association of Manufacturers, was removed from the government rolls. McMichaels was formerly chief of pages in the house, later a messengers acting as a door-keeper, and several months ago was appointed an elevator conductor in the house office building.

Attorney Got \$30 a Day.

The special senate committee continued its inquiry into the activities of lobbyists concerned with the sugar and wool schedules of the tariff bill.

A. D. Baldwin, a Cleveland attorney, testified that in Washington talking to congressmen about the sugar tariff he represented Alexander & Baldwin of New York and received \$30 a day.

A. S. Smith of Tennesse, Ga., president of the state branch of the Farmers' union, was questioned about a meeting of a committee of the National Farmers' union at New Orleans last spring at which a scheme to increase the consumption of cotton was to be discussed. He testified that his expenses were paid by R. D. Bowen, president of the Texas branch of the union. President Barrett of the national organization was not present.

Winthrop L. Marvin of the Wool association collected about \$20,000 in 1912, and in 1913 practically the same sum. In 1911 the collections were about \$15,000 and in 1910 and 1909 about \$12,000 a year.

NELSON HAS BLOOD POISON

Robert Nelson, the plumber, has an attack of blood poisoning in his left arm, the result of an injury received some weeks ago. The condition, however, is not serious.

ASK JOE VAILE TO MANAGE THE STARS

**NED WHITEBREAD HAS RESIGNED
AND OLD PLAYER IS
SOLICITED.**

Manager Ned Whitebread, of the Dixon Stars has resigned his position and the team is now without an active manager. However, the boys are planning reorganization and efforts are being made to secure the services of Joe Vaile as captain and coach. Should Mr. Vaile consent to take the team it will mean an improvement in their work and many of the fans are lending their efforts in trying to get him to accept the offer of the players.

WANT COUNCIL TO MEET IN MORNING

**ORDINANCE MAY BE PREPARED
CHANGING TIME OF THE
MEETINGS.**

The commissioners have again taken up the movement to have the time for council meeting changed so regular meetings can be held in the morning, instead of at night. It is pointed out that the commissions in every other city in the state under commission form meet in the morning, and accordingly City Attorney Keller has been asked to prepare an ordinance providing for the change of time. It is argued that on important matters, which the public may wish to discuss with the council, the commissioners can adjourn their meeting until some evening.

BOYS SWIMMING ARE NUISANCE

NORTH DIXON RESIDENTS COMPLAIN OF ACTIONS—SHERIFF WARNS SWIMMERS.

Dixon residents along the north shore of the river have complained to Sheriff C. P. Reid of the actions of certain boys who use the swimming beaches along the shore between the Assembly grounds and the dam. The people living along the river bank complain that the boys conduct themselves in a very ungentlemanly manner, use foul language, etc., and that their words and actions are so disgraceful that the complainants are unable to stay on their porches where they can hear.

The sheriff ask the papers to warn the boys' parents and the boys themselves that unless conditions are changed drastic action will be taken.

WILL ENJOY AUTO TRIP.

Mr. and Mrs. W. W. Trautman and daughter and Edward Trautman and Mrs. Walters left this morning on an auto trip to Grand Rapids, Mich., where W. W. Trautman will leave the party for Mt. Clemens to remain for some time and take the baths at that famous resort.

STUDENTS RETURN

M. J. Gannon, Jr., and C. W. Creighton have returned from Chicago where they took the state bar examination this week. They will not know the outcome of the quiz for several days.

ANOTHER SCHOOL REPORT

Charles Wagner of Bradford township filed his school treasurer's report with County Superintendent Miller yesterday.

CHOIR TO FRANKLIN

About 25 members of the choir of the Methodist church went to Franklin Grove this morning to take part in the sacred concert which will be a feature of the camp meeting there today.

TO VISIT GERMANY

John Schumm of this city and Isaac Worley of Erie left this morning for an extended visit in Germany.

ATTEND RACES.

Mr. and Mrs. Webster Poole and son Lawrence, Mr. and Mrs. Robins, Mrs. Charles Winebrenner and Mrs. George Brenner motored to Mendota today to attend the races.

SHIPPING FACILITIES IMPROVED AT STERLING

**IF PLANS MATERIALIZE THAT
CITY WILL GET DIRECT WATER
COMMUNICATION TO GULF.**

Secretary W. E. Long of the Manufacturers and Shippers' association of Sterling received notice that the Chicago & New Orleans Transportation company would establish a line to Sterling over the Hennepin canal and feeder, the first boat to be put in operation about the last of July. If this materializes it will give the shippers of Sterling and Rock Falls direct water communication with the Gulf of Mexico and to all foreign ports as well as Chicago and all Mississippi river ports. The boats used by the company are said to be of the largest type.

MARTIAL LAW PROCLAIMED.

Mill Valley, Cal., July 10—Special to Telegraph—Martial law was proclaimed here today. The U. S. troops are impressing all able bodied men to fight the terrible forest fires that are impressing all able bodied men of people are fleeing with their household goods to places of safety.

FIFTY LARGE FEATURE ACTS

**BARNES' CIRQUE OFFERS GREAT
ARRAY OF TRAINED ANI-
MAL ACTORS.**

Fifty big special features are presented by the Al G. Barnes big 3-ring wild animal circus this year. The program is entirely different. It is newer, more entertaining, more educational, more thrilling. Among the special features offered are: Negro, the African riding lion, presented by Miss Mande oberts; Capt. Stonewall and his educated sea lions; Mlle. Mable Stark and the world's only troupe of trained royal Bengal tigers; Maj. Thornton and 12 grizzly and Siberian bears; a large elephant herd in very clever posing and comedy acts. Sampson, the aviation lion; the high school riding and dancing horses and to climax the list is Herr. Roth and the \$50,000 group of full grown African bred lions, 24 in number. No lion act ever shown equals this one for size or clever wild animal training. Roth's control over the beasts is a spectacle one will never forget.

The Barnes circus has the distinction of always presenting every feature advertised and further, there are no objectionable features allowed to have any part in or around our show.

Monday, July 14, is the date for the appearance here of the Barnes shows. Performances will be given at 2 and 8 o'clock and the mile-long street parade at 10:30.

Peter Jensen of Harmon township has purchased a Page Detroit 26. Lloyd Berger expects to go to Chicago tomorrow to bring out a new car.

FIRST ACCIDENT ON BANK BUILDING

**THOMAS BLESSING RECEIVED A
GASH IN FOREHEAD WHEN
TIMBERS FELL.**

NOISE DREW A LARGE CROWD

Falling Timbers Lead Many to Believe That Serious Mishap Had Occurred.

The first accident that has attended the erection of the Dixon National bank's five story building, which has now progressed to the fourth floor, occurred at noon today when the breaking of a rope which was being used for hoisting timbers, allowed several 5x6 timbers to fall, and Thomas Blessing, who was on the sidewalk below, received a severe gash in the forehead.

The accident happened just a few minutes before the noon hour. Mr. Blessing had tied the timbers in the hoist and was on the sidewalk on the first street side of the building. As the load of timbers reached the fourth story the noose broke and before the victim of the accident could get away, they had fallen, crashing through planks three inches thick, and one heavy timber struck him in the forehead, inflicting a gash nearly three inches in length.

Fortunately a surgeon was nearby and the injured man was taken to his office at once where his injuries were attended and he was able to resume work this afternoon.

Noise Drew Many.
The noise of the falling timbers, as they crashed through the heavy platform that had been erected at the second story, lead many to believe that the entire supporting structure of concrete had collapsed and that a serious accident had resulted. As a result within a very few minutes after the accident a large crowd had gathered at the building.

MANAGE GIANTS.

George Osbaugh will manage the Dixon Giants and book dates for every day beginning next Sunday. On that day the team will play the fast Rochelle team. The Giants will practice every evening this week so as to be in trim for the game Sunday at Rochelle.

The Y. M. C. A. male chorus will meet for rehearsal Sunday at 2:30.

NEGRO ORATOR AT ASSEMBLY

Dr. M. C. B. Mason, negro orator and educator, without doubt the most eloquent negro on the American platform today. Born in slavery; 12 years of age before he entered school, he has by perseverance, pluck and courage won high distinction. The story of his early struggles which he sometimes tells in his lectures, is always listened to with deepest interest. He has traveled extensively in Europe, and has been for 21 years the corresponding secretary of the Freedmen's Aid Society. He is the Fred Douglass of this generation. He will lecture on "Africa in America and Africa Beyond the Seas" Monday, August 4, 2:30 p. m.

B. Helsey.

Engagement Announced

Announcement was made in Sterling recently of the engagement of Miss Ruth Walker of Charleston, Ill., and Oscar Munson of Sterling, the marriage to be celebrated Aug. 1st at the home of the bride's parents in Charleston.

Dixon Woman's Club

In these days when the women of our state are called to higher citizenship it is gratifying to know that Dixon has a 'Woman's club' whose program for the coming year is devoted almost entirely to the study of such topics as are now, or very soon will be, the subject of legislation—live human problems which we must solve and a study of which will bring wealth in knowledge, interest and possibility of service.

The civilization of tomorrow must establish new standards, standards which do not demoralize the home and corrupt the citizen. Therefore, it is timely that not only individual but organized effort be made to look beneath the surface of things because information must precede reformation.

The spirit of the Dixon Woman's club is one of helpfulness. Its members wish not only to inform themselves, but are planning to somehow give the public the opportunity of getting some of the best things they will have during the coming club year.

The following are some of the topics on which papers are to be read—

Problems of the Twentieth Century.

Conservation of Childhood
Birth and Death Registration
Care of Dependents
State Care of Dependent Girls
Colonization of Epileptics
Dr. Moreva Dickerman Brown of DeKalb will give an address on "Health Certificates Before Marriage License."

Mrs. Minnie Star Granger has also been secured for an address. The department of music hopes to secure Carrie Jacobs Bond for an evening's entertainment.

INFANT TOILERS IN GOTHAM

Investigator Discovers a Baby 18 Months Old at Work on Artificial Flowers.

New York.—The revelations about baby factory workers in tenements in the metropolis, brought out at the hearings of the state factory investigating commission, have shocked New York and cast a damper over much of the joyousness of this holiday season. One investigator, a woman physician, actually found an infant eighteen months old working at the manufacture of artificial flowers. A child of three was found working on corset covers. Four-year-old workers apparently are not uncommon.

The work is done in the tenement homes and frequently the children are compelled to get up at five o'clock in the morning and toil until far into the night. One family of such toilers, consisting of a mother and four children, secured a combined income of between five and six dollars a week. Many of the child workers are diseased. Tuberculosis was found by one investigator in about a third of the families. It is believed that as a result of the hearings stringent laws will be passed regulating home factory work in tenements, and there is a possibility that such work may be abolished.

PUBLIC PARK IS WANTED

Land Worth \$15,000,000, However, Is Hardly Big Enough for an "Old Cat" Game.

New York.—The latest project for a New York park is the rather staggering proposition that the city take over the site of the Equitable building, which burned last winter, and make it into an open square. The land is valued at \$15,000,000 and is hardly big enough for boys to play five-old-cat in without breaking somebody's windows.

But it is in the heart of downtown New York, one block from Wall street and the hole where the old Equitable building stood has proved a welcome source of light to many offices where the sunlight had not fallen since long before the Spanish war.

That the park plan will go through at any such cost, when a single million of the money would give playgrounds to four or five hundred thousand children, who now play in the streets, is doubtful. But it brings up the curious fact that a little more than a century ago there was actually a garden on the same ground. About 1688 Philip Stoutenberg owned the whole site, and there he established a garden, where he raised tulip bulbs to sell to his Dutch neighbors.

\$250 FOR 3 LOST TOENAILS

New York Jury Adds Another Valuation to Long List Recently Compiled in Court.

New York.—A toenail—that is, a New York lady's toenail—is worth \$83.33 1/3, or three for \$250, according to the New York courts.

Mrs. Anna Elliott was tipped over in a taxicab, lost a shoe, damaged a stocking and was parted from three toenails for the term of her life on this earth. So she sued for \$2,500 damages. The jury expressed sympathy for the loss of the shoe and stocking, but ruled them out of the count and cut down the bill by 90 per cent.

As a result a list of "What's Worth What" has been compiled from recent court decisions. It runs: Toes, woman's \$4,480; man's, three for \$2,000; arms, woman's, disfigured (pair), \$500; squeezed, \$1,000; legs, man's (pair), \$38,000; scalp, woman's lost, \$4,200; ankles, woman's, \$3,000 to \$20,000 each; fingers, man's, \$18,000 for four; hands, man's right, \$9,666; shoulders, woman's right, injured, \$1,000; eyes, man's right, injured, \$1,284; opera \$750 apiece (manuscripts, not matinees); fiances (male), \$28,828 each; sermons, 98 cents, or 312 for \$300.

LOST CITY IS FOUND

Believed to Have Been Built by Chinese in Mexico.

Three Towns Were Erected on the Same Site by Three Civilizations Prior to the Aztecs—Mongolian Image Is Discovered.

City of Mexico.—A sensation has been created in British scientific circles by advice received from Sir Martin Conway, Prof. William Niven and Senor Ramon Mena of the discovery of absolute Mongolian remains only a couple of hours' walk from the City of Mexico, thereby confirming the hypothesis that has long been held that the most ancient civilization of Mexico and Peru preceding that of the Toltecs and the Aztecs was of Mongolian origin, says a correspondent.

Close to and partly beneath the ruins of the ancient city of Tootihuacan, about nineteen miles northeast of the City of Mexico, the scientists uncovered the still more ancient city of Otumba, which flourished with a wondrous civilization centuries before the Aztecs or Toltecs rose to power, possibly even before Babylon and Nineveh swayed the destinies of western Asia.

With the financial assistance of the Mexican government the expedition began the removal of a six-foot layer of earth, representing the dust and detritus of more than twenty centuries. This soon brought into view many evidences of a vast and populous city of a very high order of civilization. Chief among these was a great pyramid. It is 700 feet square at the base and its apex is 187 feet high, while many of the giant blocks of stone in its massive walls must have required extraordinary engineering skill to handle. This pyramid also has its riddle, for the axis of the main gallery is coincidental with the magnetic meridian.

The workmanship is of a high order, the figures being boldly drawn and carefully colored.

Then came the greatest discovery of all. While excavating near the base of the great pyramid Professor Niven unearthed the remains of yet a third civilization beneath the ruins of ancient Otumba, making three great cities of lost and forgotten races, built one above the other.

In what appears to have been a tomb of the lowest city, whose age so far defies calculation, Professor Niven found the clay image of a Chinaman, with oblique eye slits, padded coat, flowing trousers and slippers. Only the queue was lacking to make a complete portrait of a mandarin of the recently defunct Chinese empire. It should be remembered, however, that the Chinese did not adopt the queue until after they had been conquered by the Tartar hordes from the north.

The image is about seven inches in length, and where the arms are broken the edges of the clay show red and friable in the center. The outer surface of the clay, however, is of granite hardness and it is only with the greatest difficulty that it can be chipped with a hammer.

"This Chinese image," writes Professor Niven, "was not made by the Aztecs. It is much older and proves that the ancient people of Mexico were familiar with the Mongol type. It should be borne in mind that this image was not a god or an idol, but an ornament—perhaps a portrait done in clay by some prehistoric sculptor."

The age of the figure is difficult to determine without further data. Circumstances, however, warrant the rough guess that about 5,000 years ago Chinese navigators crossed the Pacific in their primitive junks and discovered America thousands of years before Columbus was born. Settling there, they built a city, and in a grave of one of their number, many years after, a clay image of the man was buried with him.

"This great city fell into ruins—perhaps through conquest—but the image lay safe. The ruins of this first city were covered with earth and there arose through the centuries another splendid and mysterious city. This, too, fell into ruins, and upon it was raised a third metropolis of some forgotten race of men. At last the third city crumbled into dust, but underneath them all the Chinaman's image still lay safe and undisturbed until a little group of searchers in the cause of science in this wonderful twentieth century of ours have brought it to light, and perhaps through it we may now solve the enigma of the new world's beginning."

"Coin" in Rabbit Hole.

Savoy, Mass.—While gunning for rabbits on a lonely mountain, John Wolfe, Frank Celangey and Julian Fillion discovered a counterfeiting outfit. Their dog chased a rabbit in a hole under a large log and remained at the entrance baying loudly until the gunners arrived. One poked a stick into the hole and when he pulled it out he found a bag full of dies for counterfeiting on the end. Further search revealed sacks of metal about the size of a quarter dollar which had not been stamped. The police are investigating and suspect an Italian of the work.

Finds Finger in Tobacco.

Findley, O.—Reaching his hand into a fresh package of tobacco, John Fugza withdrew the first two joints of a human finger. Fugza will not wait until the new year to swear off, having already done so.

MEDICAL ADVERTISING; WHY NOT

Perhaps you are aware, perhaps you are not aware, that by some it is claimed that medical advertising is un-ethical. Well, I refer you to the dictionary for the word ethics. I think you will find no reference to medical advertising; and after a careful study of the word you will agree with me that a medical advertisement is just as ethical as any other piece of literature, provided it tells no untruth. Elbert Hubbard said: "The only man that has no right to advertise is the man that cannot make good."

The practice of medicine, like any other great business is a great struggle. The fittest survive; good men sometimes fail. I am mighty sorry for the hard working, poorly-paid family doctor. The whole system is wrong, and since I can not make it right, I am doing the best I can; giving everyone a square deal, paying my bills and telling the people where I am and what I can do.

It is my purpose to run in this paper for the next few weeks a series of advertising stories. They will be short—it will only take a few minutes of your time to read them and whether you are afflicted and content plate a visit to the doctor soon or not the stories may prove of more interest to you than you might expect from an advertisement.

Concerning my advertising stories that will appear from time to time, I invite your strictest scrutiny and criticism. If they do not jingle true, you are entitled to distrust them. We are all forced to choose our friends, upon our own judgement. We must make our own selection of the merchants that we would patronize. So if in need of a doctor, you make your own selection. If the advertising stories ring false, no one can blame you for being distrustful and avoiding their author.

These stories will concern everyday topics such as stomach and digestive troubles, perhaps skin diseases, rheumatism and nervous complaints, etc., etc. I also treat eye, ear, nose and throat troubles and invite your patronage whenever you are in need of a doctor. I do not profess infallibility, all I can promise you is, that I will honestly do the very best I can, when I am intrusted with a case to treat.

In limiting my practice to office work, I use the X-Ray, the Microscope and I make sure that I know what your disease is before I make any move toward treating it. One case in particular which came to me since I have been in Dixon was entirely the result of treatment applied where no disease existed.

I have sought to equip my office with a stock of the purest drugs obtainable and the most efficient treatment devices that money will buy; and since I have given the best years of my life to the study and treatment of this class of diseases by these devices, I am honest in saying that I believe I am in a position to give you the very best treatment obtainable. When in need of a doctor, come in and investigate. Consultation free.

Consultation is Free. You will find me in my office in Rochelle Mondays and Fridays. In Dixon over the Countryman store on Tuesdays, Thursdays and Saturdays, 9 a. m. to 5 p. m. Sundays and evenings by special appointment.

**CRIMINAL ACTION
FACES RAIL MEN**

Report of Commerce Body on
New Haven May Result in
Prosecutions.

ALLEGED MILLIONS ARE WASTED

Commission Says Company Should
Have Paid 8 Per Cent. Instead of
Showing Deficit for 1912—
Monopoly Is Seen.

Washington, July 10.—Criminal
prosecution of the officials of the
New York, New Haven & Hartford
railroad are considered a possibility,
following the report of the interstate
commerce commission showing that
millions of the company's money has
been wasted by the management.
Representatives of the department
of justice are investigating features
that may involve violations of the
Sherman anti-trust law as disclosed
in the report which attacked the "out-
side" financial operation of the rail-
road, in acquiring steam roads, trol-
ley lines and steamships, as "waste-
ful in the extreme."
To sustain this charge, the commis-
sion cites "the sum of \$204,000,000,
which in nine years had been expend-
ed outside of its railroad sphere," the
expenditure of portions of which is
criticized.

Attacks Trolley Deals.
The Rhode Island trolley lines ac-
quired by the New Haven after they
had passed through the hands of other
corporations in the process of
transfer, the report asserts, involved
the expenditure of \$13,500,000, which
the New Haven gave "for nothing."
These trolley lines, continues the re-
port, have cost the New Haven about
\$21,000,000 in all and have been val-
ued at somewhat more than one-quarter
of that amount. "What was the
motive behind this transaction and
who made the profit?" asks the report.
The acquisition of steamship lines is
said to be represented by such tangled
records they cannot be understood.

The acquisition of the New York,
Westchester & Boston railway, an in-
terurban electric line, is next dis-
cussed and the statement made that it
cost the New Haven \$34,000,000, a
sum \$12,000,000 in excess, says the re-
port, of the value of the property ac-
cording to the showing made by the
New Haven itself.

"What has become of this \$12,000,
000?" asks the report, continuing. "So
far as the records go, this money has
vanished into thin air."

Asserting that most of the outside
deals of the New Haven were carried
on at a loss, the report cites an ex-
ception:

"On transactions in New Haven
stock there were profits of \$102,000,
but the New Haven's books do not
show to what use the money had been
put."

Chance for Surplus.

Had the New Haven, says the re-
port, confined itself to actual railroad
activities under the same conditions
that prevailed in other respects, "it
could have paid a dividend of eight
per cent. for the fiscal year of 1912
and carried to the surplus account \$1-
794,000, instead of showing a deficit
of \$930,000."

The New Haven is censured for ac-
quiring control of the Boston & Al-
bany and of the Boston & Maine rail-
roads. The report says the agreement
with the Boston & Maine is "violative
of the spirit of the statute against re-
straint of competition and should be
canceled. This line should be kept
entirely free from New Haven con-
trol."

The merger of the New Haven with
the Boston & Maine is discussed and
the assertion made that if the existing
compact is allowed to stand the result
will be "an almost exclusive monopoly
of transportation facilities by railroad
in the greater part of New England."

It is shown by the report that in
1903 the total capitalization of the
New Haven was \$93,000,000, and its
operated mileage 2,040 miles. In 1912
its capitalization was \$417,000,000, an
increase of \$324,000,000, while its op-
erated mileage was increased only
fifty miles.

Would Control Stock.

The recommendation for general
railroad guidance are:
"Every interstate railroad should be
prohibited from expending money or
incurring liabilities or acquiring prop-
erty not in the operation of its rail-
road or in the legitimate improve-
ment, extension or development of
that railroad."

"No interstate railroad should be
permitted to lease or purchase any
other railroad, nor to acquire the
stocks or securities of any other rail-
roads, nor to guarantee the same, di-
rectly or indirectly, without the ap-
proval of the federal government."

"No stocks or bonds should be is-
sued by an interstate railroad except
for the purposes sanctioned in the
two preceding paragraphs, and none
should be issued without the approval
of the federal government."

AWAITS BANK REPORT

M'Adoo Delays Action on Failure
Pending Examiner's Findings.

Conditions Approach Normal After
Run on Savings Institution
Comes to End.

Washington, July 10.—Secretary Mc-
Adoo has decided to await the report
of Bank Examiner Samuel Hann, who
has been investigating the defunct
First-Second National bank of Pitts-
burgh, before calling up the question
of whether the national bank act was
violated in any of the operations of
the institution.

Examiner Hann is expected to leave
Pittsburgh Saturday night for Bal-
timore—his regular station—to prepare
a report to Thomas P. Kane, acting
controller of the currency, on the re-
sults of the inspection of the books of
the bank made by himself and Exam-
iner Sherrill Smith.

Pittsburgh, Pa., July 10.—Conditions
in financial circles at the closing hour
had to all appearances reached nor-
mal. The run on the Pittsburgh Bank
for Savings which was started by the
closing of the First-Second National
on Monday had subsided early in the
afternoon, after a resumption of the
run had caused some slight anxiety.

The First National bank of McKees-
port is expected to reopen within a
week, after a reorganization of its of-
ficers and directorate with the elimina-
tion of the Kuhn interests, which held
the majority of the stock of the First-
Second bank.

Application was granted by Federal
Judge C. P. Orr for receiverships for
six subsidiary companies of the Amer-
ican Waterworks and Guarantee com-
pany.

The petitions set forth that receiver-
ships are advisable to protect the prop-
erties and assets of the companies on
account of debts due.

SEEK HELP FROM WILSON

Railroads and Employees Ask Presi-
dent to Hasten Congress.

Washington, July 10.—Men repre-
senting fifty eastern railroads and
men representing the 100,000 train-
men and conductors they employ will
confer with President Wilson here
Monday to enlist his aid in urging
congress to take quick action on the
pending amendment to the Erdman
law, making a board under it consist
of six instead of three members. Sat-
urday the committee of 1,000 repre-
senting the railroad unions involved
will meet to act on the vote polled
among the members, and which stood
95 per cent. for a strike, unless the
increases demanded are granted. Of-
ficials of the unions will delay final
action, however, until after the meet-
ing with the president. If congress
acts promptly the dispute will be
arbitrated.

MUFFLED KNOCKS.

"I value your opinion so highly, old
chap, that I'm going to ask you not to
waste so much of it on me. Wait till
I ask you for it."

"Yes, you've told me the story a
dozen times, Fladger, but go ahead;
there's a sympathetic quality in your
voice that I like."

"Going to leave us, are you, Muff-
kins? Well, you'll be glad to know
that your dropping out won't hurt our
business a bit."

"I wish I could afford to buy as good
clairs as you can, old scout; I'd buy a
rather better quality than you do."

"Gregory, you bad boy, I've told you
a dozen times not to watch your Uncle
Cyrus when he pours his coffee out in-
to his saucer!"

Welcome Change.

FAMILY THEATRE

The management has decided to
play high class vaudeville the last
four days only of each week, begin-
ning tonight when the program will
consist of the Gray Trio, two ladies
and a gentleman in high class sing-
ing act, direct from the Majestic the-
atre, Chicago's leading vaudeville
theatre, where they were featured
during their last engagement.

As an extra attraction the man-
agement has secured Barry & Nel-
son, lady and gentleman, in a comedy
acrobatic novelty of a high order.

In addition the latest motion pic-
tures will be shown:

A Wealthy Paralytic

Left Teeth in Masher's Hand.

Chicago.—When a persistent masher
tried to force his attentions on Miss
Theresa Kayecki, the young woman
broke her teeth into his hand. The
man wrenched his hand away and the
girl fled. When she reached home
she discovered two of her teeth were
missing. She believes the molars re-
mained imbedded in the masher's
hand.

AMBOY ITEMS

Amboy, July 9.—W. B. Vaughan
and family motored to Chicago Tues-
day.

Mrs. Chas. Buckingham was here
Wednesday.

W. White motored to Walton on
Tuesday.

A severe storm struck here Tues-
day afternoon, doing some damage,
but nothing serious. Rain fell in tor-
rents.

Rev. Bender passed away at 9 a.
m. Wednesday at his home after a
long illness. He had resided here for
a number of years and was pastor of
the local United Brethren church for
a number of years, but for some time
had not been active in church work,
having retired on account of illness.
He leaves a large family of children
beside his wife, who will greatly miss
the kind husband and father. The
children have all married and have
homes of their own, but the wife in
her declining years will greatly miss
the kind and devoted husband with
whom she had shared the cares and
joys of life for so many years. The
funeral services will be held at the
home Friday afternoon.

Elijah King of Lee Center who has
been seriously ill, was reported some-
better Wednesday, much to the joy
of his friends.

Edwin Slough of Viola was here
today.

COMPTON NEWS

Compton, July 10.—This dry weather is an excellent time to cure clover.

Mr. and Mrs. Herbert Carnahan have moved into their new home in the Johnson residence in the eastern part of town.

Mrs. J. Cain entertained relatives from Earlville over the Fourth.

Mr. and Mrs. Ed Clapp and daughter, Mr. and Mrs. Geisinger of Storm Lake, Ia., started home Monday.

Mr. and Mrs. Ade Bradshaw and daughter Arline celebrated the 4th with Compton friends.

Stanley Banks left last week for an extended trip through the west. He will visit Denver, Salt Lake City, San Francisco, Los Angeles, Spokane and take a few side trips up the mountains. Compton friends wish him a glorious trip and a safe return home.

Scout Master Graham is planning a school for scouts which will give those wishing to join the scouts an opportunity to learn the rules and to take the required drill for a Tenderfoot and for those who wish to advance to the next order an opportunity to make their records. The camp will be pitched in the grove and the forenoon given up to scout work and afternoons to games and recreation. All Scouts interested should see the Scout Master at once.

Clifford Archer, Welden Johnson, Harold Eddy and Bruce Gilmore are among those who will take the degree of tenderfoot.

The treasury of the Methodist Ladies Aid Society is 70 dollars richer as a result of the dinner served Friday.

Friends of the church and Sunday school in and about the Berg are urged to unite with us in our Sunday school work at the Berg church each Sunday afternoon at 3:30.

Mrs. Lyons who has been receiving medical attention at the Chandler hospital for nearly six months, was able to return to her home Saturday.

Are you going to the opening services at the camp ground Thursday? Bishop McDowell will preach the opening sermon.

Mrs. Staup and daughter Nina of Chicago are visiting relatives and friends in this vicinity.

Mr. and Mrs. Jesse Fox entertained relatives from Indiana over the Fourth.

The glorious Fourth is past and everybody in this locality seems satisfied, although some confessed that it took a good part of the week to recover their equilibrium. The crowd did not arrive as early as two years ago, many of the farmers working in their fields till noon but soon after 12 the crowd in the park began to increase and by 4 the crowd seemed as large as two years ago. Everything on the program was carried out as advertised. Sec. Bailey of Dixon, delivered the address of the day and pleased the large number who turned aside from the noise and fun to hear a thoughtful address.

Mrs. Ellsworth returned Monday morning to Scarboro.

Art Archer of Compton was in Scarboro Monday.

The Celebration July 4th in Scarboro was enjoyed by all, especially the talk by Judge Farrand and Frank Stevens of Dixon. The day being ideal people came a long distance.

The ball game Lee vs. Harmon, was won by Lee, with a score of 9 to 3 in favor of Lee.

A sure indication that haying is at hand—1 mow and four loaders were taken out of Scarboro Monday morning.

Harry Bay of Aurora was in Scarboro Thursday.

The ball game developed into a rag chewing affair near the close of the game but was finally concluded without blood shed. The final score was 4 to 3, favor of Pawpaw. Both Simpson and Archer pitched good games, Simpson being a little stronger at the start, while Archer became more effective as the contest lengthened. Five reels of moving pictures and the dance entertained the crowd till nearly midnight. On the whole Compton did herself justice in the celebration and lived up to her former reputation.

SCARBORO

Scarboro, July 7.—Burt Hunt and family of Maple Park visited at the home of G. T. Noe over the Fourth.

Mr. and Mrs. Geo. Yetter and son left Friday evening for their home in Wadena, Minn. They had spent a month visiting relatives and friends in this county.

Ralph and Clarence Yetter and Alfred Cook of Stillman Valley spent the 4th here.

C. Wright of Aurora was in Scarboro Wednesday.

Miss Elsie Fisher of Pawpaw is visiting at the home of Jacob Fisher and family.

U. S. CROP REPORT SHOWS DECREASE

Cereal Yields This Year Expected to be Lower than in 1912.

BIG LOSS IN OATS IS SEEN

Aggregate in the Leading Grains Placed at 4,929,000,000 Bushels—Corn Acreage Will Be Less in 1913.

Washington, July 10.—The government crop report for July indicates bountiful crops of all the cereals, but the total production this year will be far below the grand total for last year, when there were record yields of nearly all the leading grains.

Compared with other years, however, the present crop promise is good, and it is possible that, with favorable conditions during the remainder of the growing season, some of the crops will turn out as well as last year, if not better.

The total yield of the leading cereals is placed at 4,929,000,000 bushels, compared with 5,561,000,000 bushels a year ago.

Loss Heaviest in Oats.
 The big loss compared with a year ago is in oats, which promise a yield of 1,031,000,000 bushels, against 1,418,000,000 bushels a year ago. Corn is short 154,000,000 bushels and the total wheat crop is 29,000,000 bushels less than last year. Barley is 59,000,000 bushels less than a year ago at 165,000,000 bushels.

Spring wheat promises to yield 112,000,000 bushels less than a year ago, with an indicated crop of 218,000,000 bushels. Winter wheat will be 82,000,000 bushels heavier at 482,000,000 bushels, the total wheat crop being 701,000,000 bushels, compared with 730,000,000 bushels as finally estimated in 1912.

The first report on corn for the season shows a high condition, 86.9, but the acreage is smaller than last year at 106,884,000 acres.

Corn Condition Outlined.
 Last year the corn acreage was 108,110,000 acres and the condition July 1 was 81.5. The crop promise on that date was for no larger crop than at present, although the final estimate of the crop was 3,125,000,000 bushels, while the report issued suggests a harvest of 2,971,000,000 bushels, or 154,000,000 bushels less than in 1912.

In the big surplus corn states of the middle west the outlook is for a yield of 1,718,000,000 bushels. This compares with 1,793,000,000 bushels a year ago, but is nearly 300,000,000 bushels more than was raised in 1911.

Moreover, as the par yield is advanced as the season progresses, if the present condition is maintained until harvest the crop this year will exceed the record yield of 1912.

Crop Uniformly Excellent.
 With but few exceptions the corn crop is uniformly excellent and farther along than usual at this time of the year.

Illinois and Iowa both have a promise of 348,000,000 bushels of corn, it being the closest race ever known between the two states to head the list of corn producers. Each has a high promise and conditions have been favorable.

Nebraska is next on the list with the finest crop it ever has had, indicating a yield of 270,000,000 bushels. Missouri will raise nearly as much as last year with 237,000,000 bushels.

Indicated Yields to Acre.
 The indicated yields to the acre of all leading crops, with the total yields in millions of bushels, is shown by the following table:

	Final 5 yr.	July 1, 1912	Final—1913, 1912, 1911.
W. wheat	15.6	15.1	16.2
S. wheat	11.7	11.2	16.3

AGREE ON N. E. A. PRESIDENT

Doctor Swain of Swarthmore College May Get Post.

Salt Lake City, July 10.—Except for general talk among delegates the fight for the presidency of the National Education association is over. The committee on nominations will make its report to the business meeting of the active members some time today. The committee has arrived at a final and unanimous decision on the recommendations for the three principal offices. It is generally conceded that the recommendation will be the will of the delegates. The committee, it is understood from reliable sources, has agreed on Dr. Joseph Swain, president of Swarthmore college, Swarthmore, Pa., for president of the association, to succeed Edward T. Fairchild. Durand W. Springer of Ann Arbor, Mich., will be named to succeed himself as secretary and Miss Grace M. Shepherd, state superintendent of public instruction of Idaho, will be recommended for reelection as treasurer.

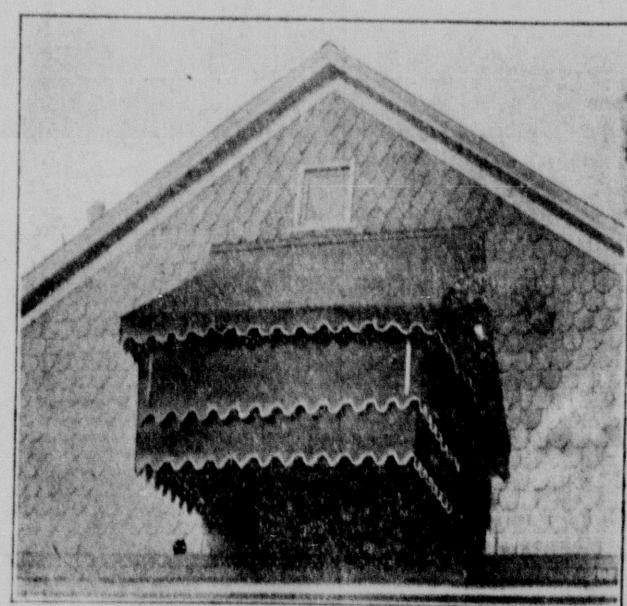

First Load of Banana Stalks.

Galveston, Tex., July 10.—The first shipload of banana stalks has arrived in the city from Central America. They are consigned to factory for the purpose of producing fibre and materials that will be used in place of cotton waste.

WINS BY WALKING SIX YEARS

Peddles Patent Kitchen Utensil to Pay His Way as He Travels the Country Over.

Memphis.—Walking to cheat death, Robert E. Hillman, thirty years old, arrived in Memphis, covering the last lap of probably the strangest journey in the history of the country.

Six years ago physicians told Hillman in Waterville, Me., that within a month or two he would be dead, a victim of the white plague. A friend

advised Hillman to "get plenty of fresh air; get out and walk, eat vegetables, drink plenty of water and fresh milk."

And so Hillman started to walk and tramped all but 400 miles of the way to San Francisco. Hillman arrived in Memphis from Texarkana. He walked from Dallas to that city. Physicians declare him a well man, and he will go back to his old home town on a train.

In the six years he has made enough money from the sale of patent kitchen utensils to more than buy transportation.

Bags and Traveling Accessories For Your Vacation Trip.

SHOPPERS MANY WOES

By BARBARA BOYD.

She approached the floorwalker, as being the man of knowledge, and asked pleasantly: "Can you tell me where I can find knitted sleeping caps?"

He looked slightly puzzled. "Knitted sleeping caps?" he responded dubiously.

"Yes. For outdoor sleeping. One needs something to protect the head, you know."

"Yes, to be sure. They are in the muslin underwear department."

"But they aren't underwear."

"No. But the flannellette nightgowns are there, and—"

"But these aren't flannellette," she objected.

"I understand," he said soothingly. "But all such things are together. Fourth floor; take the elevator."

So she took the elevator, though she thought whimsically that more correctly, it took her, and journeyed to the fourth floor.

"I am looking for knitted sleeping caps," she explained to a saleswoman in the muslin underwear department, "something to wear on the head for sleeping outdoors."

The saleswoman flung out a flannellette nightgown with a hood.

"No, that isn't what I want. I just want a cap for the head. It is made purposely for sleeping outdoors. It is knitted."

"You'll find the knitted things in the Art Needlework," said the saleswoman, gathering up her nightgown.

"But this isn't exactly art needlework—"

"All the knitted goods are there," replied the saleswoman, putting the nightgown in a drawer, and turning away.

So to the Art Needlework fared the searcher for a night cap, and once more told the tale of her needs.

"We have these knitted motor toques," said the saleswoman.

"No, they are not what I want. These sleeping caps are made purposely for sleeping outdoors. They are knitted to fit over the head and come well down over the forehead."

The saleswoman's face showed a gleam of intelligence. "I know," she said. "You'll find them in the Hosiery Department."

"Hosiery?"

"Yes. All the knitted things are there. It's the Subway Gallery in the basement."

So to the basement the woman journeyed and interviewed the stocking counter.

The saleswoman shook her head. "You should have gone to the knit underwear counter," she said with a note of mild reproach in her voice. And as the searcher turned away she heard the saleswoman say to a fellow clerk: "They'll be coming here for washtubs next."

Wearily she leaned against the knit underwear counter. "Have you knitted sleeping caps?" she asked a saleswoman.

"Notion counter," he said briskly.

He spoke so confidently hope revived, and she turned her footsteps toward the notion counter.

"You'll find them," said the saleswoman in reply to her inquiry.

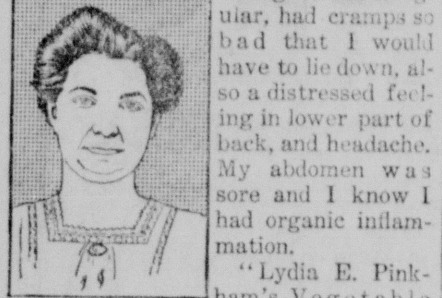

"No, I won't," replied the woman firmly. "They are not in house furnishings, nor in harness supplies, nor yet in photographic goods nor jewelry. The shoe department hasn't got them, nor gloves. In fact, I don't think they are in the store."

At this the saleswoman woke up. "Why don't you try the office of the manufacturer?" she asked. "It's right down Main street. I'll look up the number in the phone book."

CRAMPS, HEADACHE, BACKACHE,

Yield to Lydia E. Pinkham's Vegetable Compound.

Cedar Rapids, Iowa.—"I was always tired and weak and my housework was a drag. I was irregular, had cramps so bad that I would have to lie down, also a distressed feeling in lower part of back, and headache. My abdomen was sore and I know I had organic inflammation."

"Lydia E. Pinkham's Vegetable Compound and Blood Purifier have helped me wonderfully. I don't have those pains any more and I am all right now. There are a great many women here who take your remedies and I have told others what they have done for me."

—Mrs. CHAS. McKINNON, 1013 N. 5th St. W., Cedar Rapids, Iowa.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

This she did, and confident the quest was now at an end, the worn and weary searcher set forth down Main street. But at the number given there was no knit goods office, and nobody in the neighborhood knew of any. For a moment she looked at a department store across the street. But her watch told her the morning was gone, her feet told her she was dead tired, and her common sense told her to go home and sleep indoors like ordinary mortals.

And when her husband asked her that night if she had been shopping she said, "No. Hunting." Whereat he made some sarcastic remarks about the time women waste fooling around in the shops. But she was too tired to open up an argument.

FIGHTS AGAINST HER BABIES

Children, Two, Three and Four Years Old, Are Kept at Cradle Age by Mother.

Cleveland, Ohio.—In a little kitchen at her home, Mrs. Mood Thol has battled with nature for years secretly in an effort to keep time from touching her babies.

Around her feet crept three children, two, three and four years old. Victims of a strange code her ingenuity devised to prevent them advancing beyond the cradle, they laughed, kicked their feet and waved their hands as she crooned over them.

The eldest boy did not creep faster or with greater ease than the younger ones. He mumbled incoherently, and tugged at his mother's dress and slobbered over a little bib, when she tickled him beneath the chin. He is barely larger than a child of two years and apparently has not advanced intellectually beyond the cradle.

To further defeat their development, the mother has never fed them anything except baby food. What lay beyond the door, through which a stranger never passed, they had no idea.

Neighbors say the woman never took her children away from home. Occasionally in the hot summer, they say, she would wheel them away in the darkness, but always guarding them closely from the gaze of any persons.

"She has a strange desire to always keep them babies," Deputy Sheriff Sobczak said. "The four-year-old boy cannot talk or walk. He is not as large as an ordinary youngster of eighteen months old."

Several days ago William James, clerk of the probate court, discovered the plight of the children and investigated. He continued the investigation until he made sure the children were not imbeciles.

James and Sobczak went to the house, arrested the woman and took her to the City hospital. The children will be placed in an infant institution.

MAKES MASTER SAVE HIM

Dog Clings to Boy's Coat by His Teeth When Both Fall into the River.

New York.—Arthur Johnson, seven years old, was thrown from the deck of the barge Lima, of which his father is captain, when a lighter hit the barge as it was entering Pier 57, North river. His fox terrier, which stood beside the boy, was also knocked into the water by the collision.

Louis Johnson, head stevedore of the French line, and his assistant, Harry Smith, who had been standing on the stringpiece of the pier, saw the boy fall into the water and disappear, while the terrier swam over the place where he had sunk. Johnson took hold of Smith by the feet and let him down from the pier near the place where the boy had gone down. As Smith was waiting to seize the boy when he should reappear, his head came near the end of the pier, showing that the boy was rapidly floating away.

The two men ran to the end of the pier, and as they did so a tugboat arrived with Capt. William Johnson, father of the drowning boy, on deck. He threw a rope to the two men at the end of the pier. When the boy rose for the third time he was between the tugboat and the pier. The boy threw his arm over the rope and so worked his way to the pier. The little dog, which had been swimming from the side of the tug to the pier without being able to land, made his way to the boy and clung to his coat with his teeth. When the two got to the pier they were quickly lifted to safety.

DICE OFFEND ELGIN WOMEN

Mayor on Protest Promises to Stop Practices of Men in Public Places There.

Elgin, Ill.—Declaring that making eyes at women in a public waiting room, and shaking dice for cigars in their presence are offensive to womanhood, Mayor Fehrman of this city has promised to put a stop to both practices.

The Woman's Christian Temperance union called the mayor's attention to alleged attempts at flirtation on the part of persons waiting for trains, and also to the fact that dice were openly shaken for cigars where women could see the operation.

Mayor Fehrman said that he would act at once.

"Human Hands" Were Bear's Claws.

Newburgh, N. Y.—The police investigation that followed the finding on the ash dump of what appeared to be the bones of human hands ended suddenly. A taxidermist informed the police that the bones were the remains of paws of a bear, the skin of which he was curing for a hunter who had shot the animal.

PERILS OF CLIMBING

Woman Gives Account of Narrow Escape From Death.

Guide Falls in a Crevasse While Scaling Peak in the Himalayas—Taken Unconscious and Dies Soon From Injuries.

Paris.—Mrs. Fanny Bullock Workman, the mountain climber, writing from Skardu in the Himalayas, sends the first detailed account of the accident which gave rise to the report that she had been killed by an avalanche. She says:

"We were crossing Bilapho pass at about an 18,000 foot height when I and an Italian porter who had accompanied me on four Himalayan expeditions, left the caravan in order that Dr. Workman might photograph us in a picturesque standpoint. After we had been photographed the porter, who was carrying the rope, strode ahead. I was about three paces behind when suddenly without a word or a cry he disappeared, carrying the rope which was the only means of extrication."

"I stood appalled on the brink of a blue hole in the ice and called to the others, who hurried to the spot. The head guide was an hour in advance. Having only one extra rope remaining the guide called down the crevasse and a faint reply showed that Chenozi, the porter, who was far below, was still alive. Six started after the head guide, who was back in an hour and a half, when Chenozi was extricated from an eighty foot depth."

"He was still conscious, but there was no pulse and he was nearly frozen. He was carried to camp and everything possible was done for him, but he died the same night from shock. He had not been expecting to meet a crevasse, and the accident was due entirely to his want of care. My own escape was simply miraculous."

The letter describes the work of the expedition on the Siachen or Rose glacier, which is the largest and longest in Asia.

During the nine days in July Dr. and Mrs. Workman and three Italian guides made the first ascents of four important snow passes at two sources of this glacier, the heights varying from 19,500 to 21,000 feet, which constitutes a record for glacial exploration. On two of these ascents Mrs. Workman established a relation of the northeast Karakoram water parting with Kashgar and two others and discovered two passes to the large and unknown Kondus glacier. An important climb was also made to the great Silver Thorne plateau, more than 21,000 feet east of the main peak of this group.

From the northeast Siachen pass, a pass to Kashgar was found and a new group of high peaks discovered beyond the east Siachen boundary on the Kashgar side. The highest of these is 25,000 feet high.

The sixth ascent was of a high peak northeast of Bilapho pass, which was crossed in reaching the Siachen. This was made on July 11. The last 800 feet of this peak was at an angle of 50 degrees and each step was cut on as surface of black ice. An extensive view of the summit enabled the explorer to map out much future work.

For six weeks all the camps were above 17,000 feet and the cold was often intense. Grant Peterkin, a London surveyor, was enabled, owing to favorable weather, to map the entire Rose glacier. Mrs. Workman's expedition of 1911 and 1912 makes the previously unexplored Siachen the most thoroughly explored of any of the Himalayan glaciers. The expedition after traversing one of the new passes connecting the Siachen glacier with the Kondus glacier to Karmene and Baltistan.

NOTICE TO CONTRACTORS.

Sealed proposals addressed to the Board of Local Improvements and the Council of the City of Dixon, Lee County, Illinois, and endorsed proposals for the furnishing of the labor and materials for and the construction of Vitrified tile pipe sewer with manholes, flushing tank and house connection laterals to one foot inside curb lines in front of each lot or tract of land to be assessed in East Everett Street, from the manhole heretofore constructed in North Ottawa Avenue to a point 200 feet east of North Dixon Avenue, in the City of Dixon, County of Lee and State of Illinois, as provided for in Local Improvement Ordinance No. 150, Series of 1913, of said City of Dixon will be received by the Board of Local Improvements and the Council of the City of Dixon, at the City Clerk's Office in said City of Dixon, until two o'clock in the afternoon on Monday, July 14th, A. D. 1913, and will be publicly opened by the Mayor of said City of Dixon (who is President of said Board of Local Improvements) at a joint meeting of said Council and said Board of Local Improvements to be held in the Council Chambers in the City Hall in said City of Dixon at two o'clock in the afternoon on said day. Said bids will be opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's Office and be open to public inspection for at least forty-eight hours before an award of said contract is made to any competitor. After the expiration of forty-eight hours, as above stated, said Council and Board of Local Improvements shall meet in joint session and determine the most advantageous bid for the City and publicly declare the same.

The work for which said tenders are invited is the construction of about 1011.5 cubic yards of excavation and backfill; about 975 lineal feet of 8" sewer pipe (laid); about 462 lineal feet of 6" house connection laterals (laid); two manholes, 3 feet inside with cast iron covers and iron steps inside (complete), 1 manhole 4 feet inside with cast iron cover, iron steps inside, flushing si-

phon and outside lamp-hole, as provided for in Local Improvement Ordinance No. 150, Series of 1913, of the City of Dixon, Illinois.

Each bid for this work must be accompanied by certified check or cash for an amount not less than ten per cent of the aggregate of such proposals. All certified checks must be drawn on some responsible bank and must be payable to the order of the President of the Board of Local Improvements in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

Said cash or certified check will be held by said Board of Local Improvements until the bids have been canvassed and contract has been awarded and signed. The return of said checks or cash to the successful bidder being conditioned upon his appearance within fifteen days after having been notified of the award having been made to him or them, accompanied by his or their bondsmen and executing a contract with said Board of Local Improvements for the completion of the work so awarded and giving a bond satisfactory to the Board of Local Improvements and Council of the City of Dixon.

A bond of \$1000 will be required conditioned for the fulfillment of the contract in accordance with the ordinance and specifications and to the satisfaction of the Board of Local Improvements and Council of the City of Dixon. All proposals must be made on blanks which will be furnished bidders at said City Clerk's Office.

The payment for the work for which said tenders are invited is to be made in cash or bonds, payable when the contract is completed, and the work accepted by the Board of Local Improvements and Council of the City of Dixon, bonds to draw interest at five per cent. No bid will be considered unless the party making it shall furnish evidence satisfactory to said Board of Local Improvements and Council of the City of Dixon of his experience and ability in this class of work and that he can control sufficient capital to enable him to successfully prosecute the same in case the contract shall be awarded to him.

Bidders will examine the ordinance, maps, plans, profiles and specifications and also the locality in which said work is to be done and judge for themselves of all the circumstances and surrounding conditions affecting the cost and nature of the work.

Specifications are on file in the Mayor's office, and may also be seen

OLD DUTCH HOUSE

Dwelling in Staten Island Was Built About 1634.

Bought in 1848 for \$3,000 by Father of Present Owner, Who Has Lived in It Ever Since—Never Married; Never Loved a Woman.

New York.—The oldest mansion and colonial house on Staten Island is at Willow Brook, a secluded and picturesque place, a mile from Port Richmond. It is supposed to have been built shortly after the arrival of the first Dutch settlers on Staten Island in 1634.

The old mansion has ten rooms. The walls of field stone, gathered nearby, are two feet thick, keeping out the cold in winter and the heat in summer. The flooring in the bedrooms is two feet wide and two inches thick, and like the rafters in the roof, were hewn with an ax. The other parts of the building that decayed were replaced with modern lumber.

An old Dutch oven, wherein a week's baking for the family was done at one time, is in the same state of neatness and order as when the good Dutch hausfrau left it, in readiness for her next baking day.

There are beautiful rosewood tables, chairs and other pieces of antique and colonial furniture in the mansion that would fill the heart of an antiquarian with joy.

The present owner and occupant, Samuel W. Standing, now seventy-two, has lived in it since he was seven years old. In 1848 the 20 acres of land and the mansion were purchased by his father, Samuel W. Standing, for \$3,000. Part of the mansion is rented to a young couple.

"I was born in Lewpwich, Yorkshire, England, and came to Staten Island with my parents when seven years of age," said Mr. Standing. "I had two sisters. One died young, and the other is married to my neighbor, Joseph Sykes. I am a steel comb maker by trade, and began work when I was twelve years old in my father's mill, which is now run by me."

"I come from a family of steel comb makers. My father, my grandfather and my great-grandfather were steel comb makers."

"In 1839, my father, then seventy-seven, began to fail in health, and wishing to be buried with his kin in Lewpwich churchyard, he tried to get my mother to return to England with him. She refused and he started alone."

"I sold a number of my amblychila baroni for \$25 and some for \$15 and \$10. Our expedition multiplied the number of know specimens considerably and the price went down a little. I don't know how many specimens our entire party captured, but altogether the expedition was a success from a monetary as well as an entomological standpoint."

OLD DOG SAVES THE CATTLE

Drives Herd From Burning Shed and Loses Life Preventing Them From Returning.

Wheeler, S. D.—A shepherd dog was the hero of a disastrous prairie fire which swept over a portion of Tripp county, in the Rosebud country. When the fire approached the farm of John Springer, Mrs. Springer ran to the cattle shed and opened the door so the cattle could escape.

Before the woman could drive the cattle from the shed the fire was so close and the smoke so dense that she had to run back to the house and seek shelter in it.

But the dog remained at its post and with almost human intelligence succeeded in driving the cattle out of the burning shed. The animals, frightened by the fire and smoke, made frantic efforts to get back into the shed, but the faithful dog stood guard and kept them out. When the fire had swept past the cattle were found alive, although badly singed, but the dog had perished.

Jail Delivery Frustrated.

Greeley, Colo.—With one bar of a cell door sawed in two and ready to be moved and numerous saws and files among the prisoners, 14 men in the county jail had planned to murder the jailer and escape. The plot was discovered a few hours before the time set for the attempt. Thomas Burns, serving time for robbery, Edward Vaughn and Frank Lopez were the brains of the gang. The men had been at work three weeks perfecting the plans for escape.

Stage an Exception.

Cyril Scott tells of a dinner he once attended at which Edwin Booth was the guest of honor. Mr. Booth was called on for a speech.

"What shall I speak of?" he asked. He was a quiet man and hated speech-making.

"Oh, just tell us about the stage; something about the theater," someone said.

Booth laughed. "If you want to know about finance, ask a banker. But if you want to know anything about the stage, ask the barber or the hotel clerk—anyone except an actor."

GIANT PIGS GIVEN MUSEUM

Hunter Sends to New York Specimens He Captured in Africa.

New York.—Two specimens of the giant forest pig, captured by Alfred J. Klein near the Canna river in Africa, have been presented to the Museum of Natural History. They have been mounted by F. Blaschke.

The forest pig is exceeded in size only by some long extinct species whose fossil remains are found in the western states. It is comparatively unknown, partly on account of its habits, which are nocturnal. It thrives in the grass of the African jungle. High up on the slope of Mount Kenia at an elevation of about 6,000 feet, Carl E. Akely, the elephant hunter, found traces of these pigs, their tracks following the elephant trails for long distances.

The head of the forest pig is long, with ugly upturned tusks. Its legs are slender, supporting a heavy, stocky body. It is agile and powerful as it goes cavorting through the brush of the jungle.

For about 15 years it was suspected that the forests of central Africa harbored some giant specimen of the pig family. In 1904 one of these curious animals was captured by a naturalist, and thus it became known to science.

As a gift from D. G. Stapleton the museum has received a number of valuable prehistoric objects in gold and platinum from the province of Esmeraldas, Ecuador and Colombia. The collection is on exhibition in the South American gallery. The objects in platinum are of most interest, as it was not known that this metal was worked, except in this locality, by a prehistoric race of people.

BAGGAGE STUNS THE CLERKS

Sixty-three Dogs, Sixteen Trunks, Horse, Golf, Tennis and Photo Outfit Only a Part.

Los Angeles.—When Mrs. N. Bramber, a widow of wealth, arrived in the station from Atlantic City, the baggage carried in her name consisted of: Sixty-three barking dogs, sixteen trunks, five bundles of golf sticks; a full-grown horse, photographic and tennis equipments and five boxes of dog rations.

It was explained after the head of the baggage crew asked feebly, "Is that all?" that automobiles and other luxurious equipment were coming by freight. The baggage force also learned that the horse was the property of Mr. and Mrs. C. Klotz, who had been in charge of Mrs. Bramber's kennels for years. Outside of that, however, the first lineup was correct. Mrs. Bramber traveled incognito. Mrs. Klotz met all the emergencies at the transfer points, where there were lively times with the sixty-three dogs, sixteen trunks, five bundles of golf sticks and other contributions to the baggage-car jam.

"We are glad to have that nightmare of a trip over," said Mrs. Klotz, as she supervised the loading of the dogs and puppies. Calculative express employees figured that it cost Mrs. Bramber \$1,000 to move her kennel and other baggage, while Klotz paid \$470 to bring along his prize trotter.

ELK LIKE HOMING PIGEONS

Branded and Shipped 300 Miles Early Last Spring. They Go Back to National Park.

Bozeman, Mont.—Sportsmen and game wardens of Montana are convinced that the elk from the herds in the Yellowstone National park possess a homing instinct equal to that of the carrier pigeon.

Early last spring Game Warden Ferguson and his rangers trapped two caribos of elk in the mountains near Gardiner and shipped them to Hamilton, Mont., 300 miles away. They were branded and turned loose in the Hell Gate reserve, one of the largest national forests in the west.

During the last few months ranchmen in the vicinity of Hamilton have noticed a dwindling of the number of Elk in the Hell Gate forests. It has since developed, according to the state game wardens, that the animals have been returning to their old stamping ground in the Yellowstone park.

STORM CLAIMS 6 DEAD

THREE MORE ADDED TO LIST OF VICTIMS FROM GALE.

Residents of Cities Swept by Wind and Rain Clear Up Debris.

Chicago, July 10.—Residents of the cities which suffered from the storm that swept over northern Illinois and Wisconsin started the work of clearing away the debris and restoring conditions to normal.

In Elgin, where fallen trees had formed a barrier tying up street and interurban traffic, hundreds of men were put at work by the city street department and by night much of the traffic was resumed.

In Rockford, where the trees which gave the city the title of Forest City had been destroyed by the wind and rain, it is estimated that the property loss will reach about \$300,000. The city still is in darkness, as many electric wires are still dangling across streets.

Three more deaths were added to the toll of the storm. They were: Herbert L. Backus, killed at Rockford.

David H. Frazier, traveling salesman of Geneva, Ill.

Richard Wallenberg, farmer, killed at Bristol.

Although Rockford suffered heaviest during the storm not a life was lost until the storm had passed. Backus, a Spanish war veteran, was electrocuted when he attempted to pull down a live wire, which was dangling from a tree, so that his children would not be endangered.

All work in Rockford is practically at a standstill. The electric company, which supplies much of the current for industries, was prevented from turning on the current by the mass of wires lying in the street. On many industries the steel smokestacks were blown down.

The first definite reports of the damage done by the storm at Aurora reached Chicago, after an army of men had rehabilitated the telephone and telegraph service. Several buildings were blown down.

Columbus, July 10.—A terrific rain and hail storm swept parts of Columbus and Franklin county, breaking plate glass by the hundreds, destroying many greenhouses in the city and doing great damage in the country.

Ads. as Reputation Props

Let us build you an inch ad. in this paper; a column ad., a page ad., or any old size ad.

Let it tell in forceful terms: What you've got to sell What it's worth Why it's best at that price

Such an advertisement in this paper will bring buyers who hardly knew you existed before you advertised.

GLOBE WROUGHT IRON RANGES

A handsome big wrought iron—not steel, range—one that we can highly recommend after many years of selling, and that hundreds of our customers can highly recommend after many years of use—with a big oven, roomy warming closet and 10 gallon reservoir of solid copper, all for

\$48.00

Why pay \$65.00 to \$75.00 for a range not as good

Our Globe Wrought Iron Ranges have a beautiful smooth finish and are Electric Welded—no rivets to catch dirt, interfere with cleaning and let seams open up.

The genuine Wrought Iron of which they are made is Guaranteed 25 Years Against Rusting Through. We have 3 sizes costing from \$40 to \$48. Why pay more. BE SURE YOU SEE THE GLOBE BEFORE YOU DECIDE TO BUY.

Raspberries

are about over. This week will see the last of the home grown Michigan may last over next week. Prices do not look as though they will be any lower. In fact Michigan berries may be higher than home grown.

Gooseberries

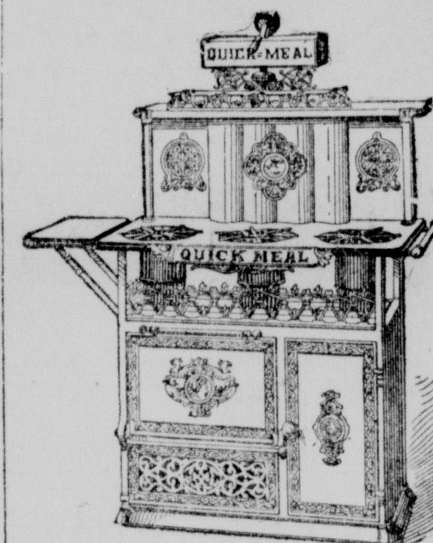

and Currants will last a little longer. Early Cherries are about over and the late ones will be in their prime about the first of next week. Southern Peaches will be plenty in about a week or ten days. Real good Watermelons are here at about 35 to 40 cents.
